## Asian American Press

---

From the initial drawings to a variety of stages during the construction process, VSI presented me with several good ideas for saving money. The cost cutting measures did not compromise the quality and the beauty of the building project.

VSI did an excellent job keeping the construction time on target, even through the winter months in Minnesota. I am very pleased and appreciate that VSI has presented our community with a beautiful building. It is a pleasant facility and very useful as our Computer Technology Center.

I highly recommending VSI to others for their construction projects.
