## Datacard Front Entry

---

"...Completing a complete renovation of the main lobby and reception area, our showroom, boardroom and two sets of restrooms is of course a very high profile and challenging work environment. However, because of the great planning and project management there was minimal disruption of our business and all Datacard colleagues were truly amazed at the transformation that took place. Jay, you and your team have proven that you are committed to achieving high-quality results and capable of completing challenging projects. Rest assured, for our next project, my first call will be to VSI."

Doug McKibbon  
Director Infrastructure  
Datacard Group
