Just a quick note to thank you for the excellent work VSI did on our education office space. Throughout the process you, other VSI employees and your subcontractors were very easy to work with. From demolition of the old area to application of the finish coat, the entire team was very knowledgeable and fully qualified in their area of expertise. Not only did we get a quality job that was completed on time but, equally important, it was also on budget. The staff are pleased with their work area, as well. I don't think the project could have gone better than it did. I look forward to the opportunity to work with you and VSI again.
