## Opus Corporation

---

the employees from VSI working on this office were very competent. There were a few problems that arose during the assembly of some of the furniture, however, not to the fault of VSI.

Overall, the staff from VSI that was onsite was a very good crew. They handled onsite problems very well and made sure the work was done in an orderly and timely fashion. I would definitely recommend VSI as installers to anyone who is looking for professional and efficient service.
