Family Financial Strategies

There are few installation companies anywhere that could have handled the scope of this project the way VSI did. From delivering the product through a building window, to perfectly installing the curved lifeSPACE movable walls, to putting the final touches on the workstations and office furniture, your crew never missed a beat. More importantly, the project was handled professionally and was completed on schedule. In the end, both SMED and VSI have a happy client. VSI offers SMED the availability of everything from construction services to the fine detail of office furniture installation, all from one company. We know the success of our products and services are ultimately only as strong as our installation partners. VSI never lets us down.

-Berk Claiborne, Regional Vice President SMED International
